It's Time to Step into Regeneration

Your feet are more powerful than you think. With over 7,000 nerve endings and reflex zones connecting to your organs, muscles, and joints, they act like a gateway to full-body restoration.

When circulation slows or energy gets blocked, your body can feel sluggish, tense, or off balance. But by stimulating key zones in the feet, you can help reset that flow and bring your body back to the center.

That's where Cellnergy FootCharge comes in. This advanced wellness device is designed to work with your body—not against it—using non-invasive technology to spark natural relief, energy, and recovery.

Cellnergy FootCharge

It combines three powerful technologies in one daily session to help you feel more energized, aligned, and recharged:

Cellwave™ BioActivation

Awakens nerve activity and enhances neuromuscular communication*

Terahertz Resonance

Reactivates cellular energy at the frequency of optimal health*

Infrared Thermotherapy

Penetrates deep into tissues to stimulate blood flow and regenerative activity*

CELLNERGY FOOTCHARGE

Six Modes of the Foot Device:

1. **Tighten:** Fascia release and light scraping.
2. **Relax:** Gentle pulses to calm the nervous system.
3. **Strength:** Builds key foot muscles.
4. **Kneading:** Deep therapeutic massage-like pressure.
5. **Shake:** Loosens joints, boosts flow.
6. **Tap:** Reflexology-inspired tapping to stimulate recovery.

Regenerative Technology

CellWave™ Bioactivation (CWB)

Utilizing low-frequency waves, this breakthrough technology gently stimulates your nerves and neuromuscular pathways, which may awaken dormant signaling to enhance communication between your brain and body—supporting improved balance, coordination, and overall nervous system vitality.

Terahertz Resonance (~1 THz)

Operating at the frequency of optimal health, Terahertz resonance helps reactivate cellular activity by harmonizing your body's natural electromagnetic rhythms. This bio-resonance effect helps jumpstart regeneration at the cellular level, supporting renewed energy and functional vitality.

Infrared Thermotherapy (38–45°C)

Delivering soothing, controlled heat deep into your tissues, infrared thermotherapy helps boost circulation, oxygenation, and detoxification. By supporting blood flow and nutrient delivery, it helps with cellular repair and accelerates recovery while alleviating tension and discomfort.

Together, these synergistic technologies create a comprehensive regenerative experience designed to help restore your feet, nervous system, and overall wellbeing.

Did You Know: Reigniting Your Stem Cells Can Be Life Changing as You Age?

Stem cells are like your body's handy helpers, ready to turn into any cell your body needs, whether it's a skin cell, a muscle cell, or a brain cell. As we get older, these stem cells slow down, making it harder for our body to repair itself or stay as healthy. LifePharm, The Stem Cell Performance Company, is here to give these stem cells a boost, like adding more helpers to a busy factory, so they can keep you feeling young and healthy for longer.

Here's how LifePharm aims to keep you thriving:

- **LAMININE** supports healthy cell division and extends the strength of your stem cells, contributing to a lively body.
- **OMEGA***** ensures your blood flows well, carrying essential nutrients to your stem cells.
- **DIGESTIVE***** takes a holistic approach to gut health, and synergizes with stem cells to enhance their performance, promoting a balanced digestive system.
- **IMMUNE***** boosts your body's natural defenses and collaborates with stem cells to optimize their function, guarding you against illnesses.
- **LAMIDERM APEX** and **OMNIA** work together from the inside out to rejuvenate your skin cells, fostering radiant, youthful skin.
- **REFIVE**, a specialized blend curated for stem cell optimization, serves as a daily enhancer for both your physical and emotional well-being.
- **EXTRIM SHAPE** is tailored to manage blood sugar levels, promoting metabolic balance and weight management.
- **CELLNERGY WELLNESS** employs three distinct technologies to activate stem cells, revitalizing tissues and organs throughout your body. Consider this as your body's rejuvenation hub.

LifePharm is dedicated to enhancing your stem cell performance to help you age gracefully. Through its range of products, LifePharm addresses the simple yet significant need to keep our stem cells performing well as a proactive measure against the challenges posed by aging.

LAMININE®

Building a Strong Foundation

LAMININE is a stem cell regeneration supplement that contains the proprietary blend of Egg Bioactive Growth Factors, Marine Proteins, and Phyto Proteins. These ingredients play an important role in the proliferation, differentiation and survival of stem cells in almost all organ systems.

Stem cells are vital to the health of your organs. But over time, they gradually lose the ability to repair themselves. This is known as stem cell dysfunction. Stem cells also cannot thrive without telomeres. A telomere is the cap on the end of a chromosome which protects your DNA, like a plastic cap on the end of shoelace that prevents the shoelace from unraveling. A telomere prevents a chromosome from damage as cells continue to divide.

Your cells need to divide over time to keep all body functions working properly. However, as you age, your telomeres get shorter as your cells keep dividing. When your telomeres get too short, your cells won't be able to divide anymore. Studies have shown that lengthening your telomeres can rejuvenate your cells and may promote healthier aging.

The Egg Bioactive Growth Factors in LAMININE have been proven to increase energy, promote restful sleep, stabilize blood sugar levels and reduce joint discomfort.

ACTIVE INGREDIENTS:

Egg Bioactive Growth Factors

Support most organs and stem cells by working at the DNA level to stimulate cell rejuvenation.

Phyto Proteins

Contains essential amino acids to create a complete amino acid supplement.

Marine Proteins

High quality cartilaginous proteins that supply essential amino acids for all basic cellular and thus body functions.

BENEFITS:

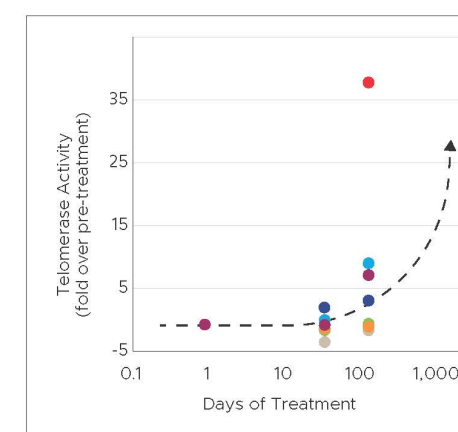

- Improved stamina, vitality and energy.*
- More restful sleep.*
- Reduced stress.*
- Alleviated joint discomfort.*
- Maintenance of healthy blood sugar levels.*

STUDY:

LAMININE AND TELOMERE CONNECTION

Subjects Taking 4 LAMININE Daily for 90 Days Showed an Increase in Telomerase, the Enzyme that Lengthens the Telomeres, which Supports Healthy Aging.

LAMININE helps with anti-aging, reduces discomfort/soreness of joints and has been shown to reduce anxiety. These results are correlated to longer telomere length and healthier DNA.*

LAMININE has been featured on the American Health Journal in 2012 and 2016, in the Physicians' Desk Reference, and at the American Academy for Anti-Aging Medicine.

ENDORSEMENTS

"I have been through seven months of therapy to improve my health, and I believe LAMININE assisted in my recovery by allowing me to have a good night's sleep and maintain my muscle tone and strength."

Laurene B., Australia

"LAMININE has helped reduce my stress levels, and I now sleep much better. My body feels stronger overall and is more balanced than it has been for years."

Clare T., UK

THE PEPTIDE COMMUNITY IS RIGHTFULLY OBSESSED WITH TARGETED SOLUTIONS: ONE FOR FAT LOSS, ANOTHER FOR RECOVERY, A DIFFERENT ONE FOR SKIN.

BUT WHAT IF YOU COULD ACCESS A SINGLE, MASTER SIGNALING MOLECULE THAT ORCHESTRATES WHOLE-BODY REGENERATION FAR BEYOND MERE WEIGHT LOSS?

INTRODUCING FIBROBLAST GROWTH FACTOR-2 (FGF-2): A FUNDAMENTAL POLYPEPTIDE THAT DOESN'T JUST ASSIST YOUR BODY—IT FUNDAMENTALLY REPROGRAMS AND REVITALIZES IT FROM THE CELLULAR LEVEL UP.

WHILE TRADITIONAL PEPTIDES GIVE YOUR BODY SPECIFIC INSTRUCTIONS, FGF-2 IS LIKE REBOOTING THE ENTIRE OPERATING SYSTEM. IT IS A KEY REGULATOR OF STEM CELLS, TRIGGERING A POWERFUL CASCADE OF INNATE REPAIR PROCESSES.

THIS ISN'T ABOUT A SINGLE BENEFIT; IT'S ABOUT SYSTEMIC RENEWAL.

THE FGF-2 REGENERATION EFFECT:

- **NEURO-REGENERATION:** SUPPORTS THE HEALTH AND PLASTICITY OF YOUR BRAIN AND NERVOUS SYSTEM.
- **ANGIOGENESIS:** BUILDS NEW, HEALTHY MICRO-CAPILLARIES, DRAMATICALLY ENHANCING BLOOD FLOW AND NUTRIENT DELIVERY TO EVERY ORGAN AND MUSCLE.
- **TRUE CELLULAR RENEWAL:** PROMOTES THE PROLIFERATION OF STEM CELLS FOR THE REPAIR OF TISSUES, SKIN, JOINTS, AND INTERNAL ORGANS.
- **METABOLIC MASTERY:** WHILE WEIGHT LOSS CAN BE A WELCOME SIDE EFFECT OF A OPTIMIZED METABOLISM, THE GOAL IS A COMPLETE METABOLIC REJUVENATION.
- **TRUE STRESS RESET:** DON'T JUST BAND AID AND TRY TO COPE WITH STRESS OR JUST ACTIVATE YOUR VAGUS NERVE SHORT TERM – REGENERATE YOUR ENTIRE STRESS SYSTEMS AND ORGANS.

STOP THINKING IN SINGLE PATHWAYS. START THINKING IN SYSTEMS. FGF-2 ISN'T THE NEXT STEP IN BIOHACKING—IT'S THE LEAP.

INTRIGUED?

THIS IS JUST THE BEGINNING.

THE PEPTIDE ERA WAS JUST THE PRELUDE. WELCOME TO THE AGE OF THE POLYPEPTIDE.

YOU'VE MASTERED PEPTIDES. YOU UNDERSTAND THEIR TARGETED POWER FOR SHREDDING FAT, BUILDING MUSCLE, AND SHARPENING FOCUS.

BUT THESE ARE SOLO ARTISTS.

IT'S TIME TO MEET THE CONDUCTOR OF YOUR BODY'S ENTIRE REGENERATIVE ORCHESTRA: FGF-2.

THIS ISN'T ANOTHER INCREMENTAL UPGRADE. THIS IS A PARADIGM SHIFT FROM TARGETED HACKING TO WHOLE-SYSTEM RENEWAL.

FGF-2 (FIBROBLAST GROWTH FACTOR-2) IS A MASTER SIGNALING POLYPEPTIDE THAT COMMUNICATES DIRECTLY WITH YOUR STEM CELLS, INITIATING A FOUNDATIONAL REPAIR PROTOCOL THAT MOST PEPTIDES ONLY DREAM OF INFLUENCING.

THINK BIGGER THAN WEIGHT LOSS.

THINK COMPLETE CELLULAR REVITALIZATION.

DON'T JUST COPE WITH STRESS REGENERATE THE SYSTEMS THAT HANDLE IT

**FOR TOO LONG, WELLNESS SOLUTIONS HAVE
OFFERED TEMPORARY RELIEF—BAND-AIDS FOR
STRESS, FATIGUE, AND BURNOUT. BUT WHAT IF
YOU COULD DO MORE THAN JUST COPE?**

**WHAT IF YOU COULD FUNDAMENTALLY
REGENERATE YOUR BODY'S ABILITY TO HANDLE
STRESS, RECOVER FASTER, AND MAINTAIN BALANCE NO MATTER WHAT
LIFE BRINGS?**

**INTRODUCING FGF-2—THE POLYPEPTIDE
DESIGNED NOT TO MASK SYMPTOMS, BUT TO
RENEW YOUR BIOLOGICAL FOUNDATION.**

UNLIKE ORDINARY SUPPLEMENTS THAT WORK ON THE SURFACE, FGF-2 OPERATES AT THE CELLULAR LEVEL, SUPPORTING THE REGENERATION OF THE VERY SYSTEMS RESPONSIBLE FOR YOUR RESILIENCE:

YOUR ADRENAL FUNCTION, NEURAL NETWORKS, MITOCHONDRIAL ENERGY PRODUCTION, AND IMMUNE RESPONSE.

THIS IS MORE THAN RECOVERY—IT'S RESTORATION. BY ACTIVATING STEM CELLS AND ENHANCING CELLULAR COMMUNICATION, FGF-2 HELPS REBUILD YOUR BODY'S INNATE CAPACITY TO ADAPT, RECOVER, AND THRIVE UNDER PRESSURE.

YOU'RE NOT AVOIDING STRESS—YOU'RE EVOLVING BEYOND IT.

JOIN THE NEW ERA OF REGENERATIVE WELLNESS.

LEAVE BEHIND THE CYCLE OF COPING AND STEP INTO A FUTURE WHERE YOUR BODY DOESN'T JUST WITHSTAND STRESS—IT TRANSCENDS IT.

WELCOME TO THE REGENERATION NATION.

UNLOCKING REGENERATION: HOW THE FGF-2 POLYPEPTIDE IS REDEFINING CELLULAR RENEWAL

THE WORLD OF PEPTIDES HAS LONG OFFERED TARGETED SOLUTIONS FOR EVERYTHING FROM WEIGHT MANAGEMENT TO MUSCLE RECOVERY. YET FOR ALL THEIR BENEFITS, TRADITIONAL PEPTIDES REPRESENT JUST ONE PIECE OF A MUCH LARGER PUZZLE—THE ULTIMATE PUZZLE OF HUMAN REGENERATION.

NOW, EMERGING SCIENCE IS SHIFTING FOCUS TOWARD A POWERFUL NEW CLASS OF MOLECULES: POLYPEPTIDES.

AT THE FOREFRONT OF THIS REVOLUTION STANDS FIBROBLAST GROWTH FACTOR-2 (FGF-2), A MASTER SIGNALING POLYPEPTIDE THAT DOESN'T JUST INFLUENCE ONE PATHWAY—IT HELPS RESTORE THE ENTIRE SYSTEM.

SO WHAT SETS FGF-2 APART? UNLIKE SHORTER-CHAIN PEPTIDES THAT OFTEN FOCUS ON SINGULAR BIOLOGICAL FUNCTIONS, FGF-2 OPERATES AS A CENTRAL REGULATOR OF CELLULAR REPAIR AND RENEWAL.

IT COMMUNICATES DIRECTLY WITH STEM CELLS, PROMOTING THE REGENERATION OF MUSCLE, NERVE, CARTILAGE, AND VASCULAR TISSUES. IT SUPPORTS COGNITIVE FUNCTION BY ENHANCING NEUROGENESIS—THE GROWTH OF NEW NEURONS—WHILE ALSO IMPROVING METABOLIC EFFICIENCY AND SKIN ELASTICITY.

THIS ISN'T OPTIMIZATION; IT'S REVITALIZATION AT THE DEEPEST LEVEL.

WE CALL THIS MOVEMENT THE REGENERATION NATION.

**A GROWING COMMUNITY OF INNOVATORS WHO
UNDERSTAND THAT TRUE WELLNESS ISN'T ABOUT
MASKING SYMPTOMS WITH ISOLATED SOLUTIONS.**

**IT'S ABOUT ACTIVATING THE BODY'S INNATE ABILITY
TO RESTORE, RENEW, AND THRIVE. WITH FGF-2,
WE'RE NOT JUST FINE-TUNING THE BODY—WE'RE
HELPING REWRITE ITS FUTURE.**

**JOIN US AS WE STEP INTO THE NEXT ERA OF
REGENERATIVE HEALTH. THE POLYPEPTIDE SHIFT
ISN'T COMING—IT'S ALREADY HERE.**

EXPLORE THE SCIENCE. EMBRACE THE CHANGE.

DIGESTIVE+++

Go with Your Gut

DIGESTIVE+++ is an effective combination of probiotics, prebiotics and enzymes to balance the good and bad bacteria in your intestines. It helps your body absorb nutrients from the food you eat for energy, and then eliminates what your body doesn't need through waste.

Probiotics are good bacteria in your gut that help keep detrimental bacteria from proliferating. Prebiotics are basically food for the good bacteria in your gut. Our prebiotics are a powerful blend of short-chain Fructooligosaccharides, Jerusalem Artichoke, Dandelion Leaves and Yacon Root. Using both probiotics and prebiotics together increases the good bacteria in your digestive tract.

The comprehensive enzyme blend helps your body break down proteins, carbohydrates, lactose (milk sugar), and fats to maximize their benefits. This also supports more effective elimination and less bloating. After the age of 20, your natural digestive enzyme production decreases by about 10% per decade. It is important to replenish your digestive enzymes as you age to ensure that your digestive system works efficiently. When your digestive system is not working properly, it could lead to other health issues in your body.

EXTRIM SHAPE

Regulate Your Blood Sugar

EXTRIM SHAPE targets the often-overlooked cause of weight struggles after age 30: High blood sugar levels that make your body store fat. This proprietary formula delivers a clinically-validated blend of natural growth factors and nutrients that can ease weight control, reduce cravings, and support healthy blood sugar levels.

When blood sugar levels spike, your body stores more fat. And the kind of fat you’re most likely to store is visceral fat — the dangerous belly fat linked to many chronic health issues. To make things worse, coming down from these blood sugar spikes leaves us fatigued... and craving foods that spike our levels even more. The body can maintain healthy blood sugar levels in youth because it makes plenty of insulin-producing beta cells.

ACTIVE INGREDIENTS:

Egg Bioactive Growth Factors
Research confirms these proprietary growth factors support healthy blood sugar levels. Helps replenish your body's insulin-producing beta cells.

Block Blend
3 nutrients that work together to "cancel out" carbs, reduce cravings for sugary foods, and maintain healthy blood sugar levels.

Burn Blend
Combines 3 plant extracts shown to help reduce blood sugar levels, suppress your appetite and boost your metabolism.

Boost Blend
A mix of plant extracts that can make you feel full, stay regular and eliminate energy-zapping toxins.

BENEFITS:

- Fight blood sugar spikes that make your body store fat.*
- End the fatigue, brain fog, and cravings that come from post-spike crashes in blood sugar.*
- Promote insulin-producing beta cells to maintain healthy blood sugar levels.*

ENDORSEMENTS

“As soon as I started taking it, EXTRIM SHAPE curbed my appetite and my cravings. I no longer wanted those sugary, unhealthy foods.”
Brittany B., U.S.A.

“I tried EXTRIM just for a few days and I'm happy with the results so far. I already saw a difference in my waist circumference in 2 days. I also noticed the benefits for increased metabolism and digestion.”
Michael B., U.S.A.

“I have been taking LifePharm products for almost 10 years. Every time the company brings a new product to the market, I take them religiously. Because of my graceful age, it's important to me to stay healthy and strong. So I'm very proud of my good health and strong body, but there is something that I am not proud about myself—my addiction to ice cream. After I turned 50, I started to gain weight and I have to do many physical activities like exercising, walking and even running. So I was already taking EXTRIM SHAPE for 2.5 weeks. I have a product to help me stay away from my bad health habits. Now I have the solution to lose weight and maintain weight for a lifetime. Thank you, LifePharm.”

CELLNERGY WELLNESS

Experience a New Wave to Feel Your Best

Every cell in the body has a frequency measured at a certain vibration. Our state-of-the-art CELLNERGY WELLNESS device emits terahertz waves that penetrate deep in the bone marrow and resonate at the same frequency as healthy cells. Activating healthy cells through vibrations causes them to perform their functions more effectively, thus stimulating cellular regeneration, accelerating tissue repair, and promoting overall vitality.

The device also uses 630 nm red light that can penetrate the skin deeper than any other light colors, reaching cells without damaging the surrounding tissue. Red light works at the cellular level by stimulating the mitochondria in cells (or the cell's powerhouse) to produce more ATP (adenosine triphosphate). An increase in ATP means that there is more energy in cells, allowing them to rejuvenate and repair themselves.

CELLNERGY WELLNESS's advanced technology also uses heat therapy to alleviate pain, reduce muscle tension, and promote relaxation. By delivering controlled heated airflow to targeted areas, our device enhances blood flow, encourages nutrient delivery to cells, and aids in the elimination of toxins.

TECHNOLOGY:

Terahertz Waves (THz)
Penetrates deep into the bone marrow and vibrates at the same frequency as healthy cells to help stimulate cellular regeneration for accelerated tissue repair and overall vitality.

Red Light Therapy
Penetrates the skin deeper than all light colors to boost cellular energy (ATP). This helps support increased collagen production, increased blood circulation, accelerated healing, and reduced inflammation, fine lines, and wrinkles.

Heat Therapy
Delivers controlled heat to targeted areas to help enhance blood flow, encourage nutrient delivery to cells, aid in elimination of toxins, alleviate pain, reduce muscle tension, and promote relaxation.

BENEFITS:

- Stimulates collagen and fibroblast production for rejuvenated skin*
- Helps increase blood circulation, aiding in nutrient delivery and waste removal*
- Helps to reduce inflammation, alleviating pain and discomfort*
- Supports wound healing and improves scars' appearance*
- Helps diminish wrinkles, fine lines, and age spots for a more youthful appearance*

ENDORSEMENTS

"Recently, I suffered an injury that resulted in two cracked toenails after a fall. Although I can walk and stand, doing so for extended periods is challenging. I've been using a cream that provides significant relief whenever the pain becomes intense, eliminating the need for painkillers. When applied, the cream generates a penetrating heat through the muscles and bones of my foot, and only a small amount is necessary for effectiveness. Interestingly, the sensation of heat remains even after washing the area where the cream was applied."

Celmarie C., Philippines

"I had a minor accident that severely affected my right knee, making it difficult to walk. I started using the Cellnergy Wellness device, and within a few days, I noticed significant improvements and could resume my normal activities. Although the pain in my knee gradually lessened, it persisted, especially at night. Then, I began applying the Cellnergy Wellness Power cream, which provided immediate relief. Initially, I struggled with stairs, but after using the cream, I found it much easier to navigate them."
